WHERE EXPERIENCE MEETS EXPERTISE

We're here for every step.

Our joint replacement program has been designed to fully support patients through every step of their journey. From initial consultation through surgery, rehabilitation and recovery, our team is focused on helping you recover completely so you can quickly get back to living your best possible life.

100% personalized.

A successful joint replacement surgery looks different to everyone. Our team carefully analyzes each patient — their needs, goals and level of activity — as we approach each joint replacement with a customized plan of care. This personalized approach, along with our reputation of expertise and successful outcomes, places us among the leading total joint replacement programs in the region.

WHAT TO EXPECT

We go to great lengths to deliver the ideal experience for every patient, offering a higher level of care that includes:

- Pre-operative classes: this personalized class will include all members of your care team, designed to prepare you for your joint replacement experience from start to finish
- Streamlined pre-operative testing and pre-registration
- Private rooms, all located on our new, fully-designated Joint Replacement Unit
- Amenities, including room service, free Wi-Fi, daily group therapy sessions and post-op luncheons with staff.

JOINING FORCES FOR THE BEST POSSIBLE OUTCOME

The Methodist Hospital Joint Replacement Program, a collaborative partnership between Methodist Hospital and Orthopaedic Associates, brings together two powerhouse providers to offer patients the latest advances in knee and hip replacement surgery.

This collaboration gives patients access to an experienced team that includes board-certified orthopaedic surgeons, anesthesiologists, nurses, physical therapy staff and case managers — all working together to ensure the best possible outcome for every patient.
